

E2000S Junior Gang Resaw

Powerful features. Compact size.

With a smaller footprint than our standard gang saws, the E2000S Junior delivers plenty of power to handle a wide variety of materials. Featuring cantilevered arbors designed to handle 8" and 10" saw blades, the Pendu Junior can cut cants up to 6" high by 8" wide. Built on a thick, all steel box-frame, each unit features an automatic chain infeed system with manual height adjustment. Easy-access arbors are designed

to make maintenance simple — changeover a breeze.
