

# SLING SORTER

## AUTOMATICALLY SORT YOUR GRADED LUMBER

Pendu Sling Sorters automatically sort your lumber quickly and efficiently! Customization options include an unlimited number of high capacity bins and variable speed rates to fit the needs of your operation. Your graded lumber is tracked across the drag chain and automatically drops into the bin designated for its size. Sling Sorters save time, money, and manpower, and dramatically increase your production rates.

Call us today for detailed information on how a Pendu Sling Sorter can maximize your production!
